

```
# Shell Program to Accept Command Line Arguments

clear

echo $#

for i in $*
do
    echo $i
done
```

Output:A terminal window titled "root@localhost:~/Programs" with a menu bar containing "File", "Edit", "View", "Terminal", "Tabs", and "Help". The terminal shows the command "[root@localhost Programs]# sh commandline.txt Hello How Are You?" being executed. The output is "4", "Hello", "How", "Are", and "You?". The prompt "[root@localhost Programs]#" is shown again at the end.

```
root@localhost:~/Programs
File Edit View Terminal Tabs Help
[root@localhost Programs]# sh commandline.txt Hello How Are You?
4
Hello
How
Are
You?
[root@localhost Programs]#
```
