

```
# Shell Program to find Average of Three Numbers

clear

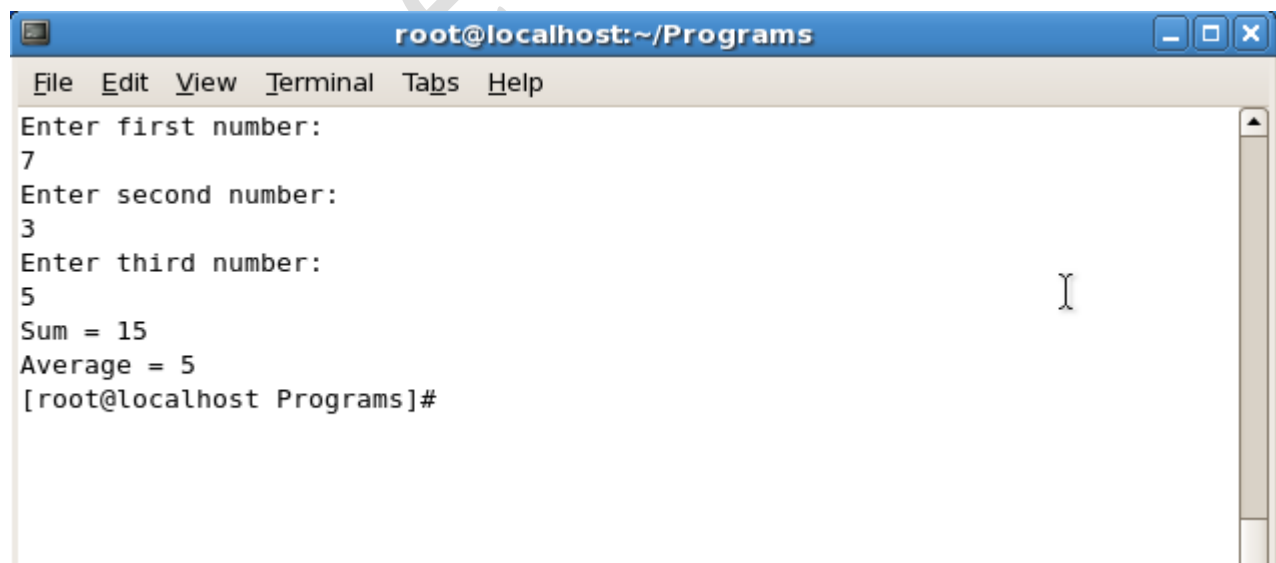

echo "Enter first number: "
read a

echo "Enter second number: "
read b

echo "Enter third number: "
read c

sum=`expr $a + $b + $c`
avg=`expr $sum / 3`

echo "Sum = $sum"
echo "Average = $avg"
```

Output:

The screenshot shows a terminal window titled "root@localhost:~/Programs". The terminal displays the output of the shell script, which prompts the user to enter three numbers: 7, 3, and 5. The script then calculates the sum (15) and the average (5). The terminal prompt is "[root@localhost Programs]#".

```
root@localhost:~/Programs
File Edit View Terminal Tabs Help
Enter first number:
7
Enter second number:
3
Enter third number:
5
Sum = 15
Average = 5
[root@localhost Programs]#
```
