

```
# Shell Program to Find whether the Character is Vowel or Not

clear

echo "Enter any character: "
read ch

case $ch in
    "a") echo "It is a vowel.>";;
    "e") echo "It is a vowel.>";;
    "i") echo "It is a vowel.>";;
    "o") echo "It is a vowel.>";;
    "u") echo "It is a vowel.>";;
    *) echo "It is not a vowel."
esac
```

Output:

```
root@localhost:~/Programs
File Edit View Terminal Tabs Help
Enter any character:
a
It is a vowel.
[root@localhost Programs]#
```
